

ASHA RAM

FULL STACK DEVELOPER

Hashmani Icon, Garden West, KARACHI, Pakistan | lohanaasharaam1@gmail.com | [+92 306 3039620](tel:+923063039620) | [LinkedIn](#)

PROFILE

Collaborative Full-Stack Developer focused on building secure, scalable mobile and web applications with enhanced efficiency through **AI-powered development tools**. Expert in leveraging **Next.js, React Native, and Node.js** to deliver high-quality solutions while optimizing workflows and reducing turnaround time. Strong foundation in **Information Security and Networking**, combined with **Team Leadership** and **Creative Communication** to drive projects from concept to rapid deployment.

PROFESSIONAL EXPERIENCE

Backend Developer, SMW Oct 2025 — Dec 2025

Karachi

- Scalable Architecture:** Designed and implemented a robust backend architecture for a [Yahan platform ki category likhein, e.g., E-commerce/Social] platform using **Node.js** and **Express.js**, ensuring 99% API uptime.
- Database Management:** Optimized complex **SQL queries** and schema designs, reducing data retrieval time by approximately 20% for high-traffic endpoints.
- API Development:** Developed and documented secure RESTful APIs, integrating third-party services and ensuring seamless frontend-backend communication.
- Problem Solving:** Debugged and resolved critical server-side issues during the development phase, improving the overall system stability and performance.

Full Stack Developer, Hybrid Inovations Jun 2025 — Aug 2026

Karachi

- Cross-Platform Development:** Developed and maintained multiple high-performance mobile applications using **React Native**, focusing on seamless UI/UX and responsive design across iOS and Android.
- Full-Stack Web Engineering:** Built scalable web platforms using **Next.js**, leveraging Server-Side Rendering (SSR) for optimized SEO and faster page load speeds.
- Backend & Database Integration:** Implemented **Supabase** for real-time database management, authentication, and cloud storage, reducing backend setup time and improving data synchronization.
- State Management & APIs:** Utilized advanced state management and integrated complex RESTful APIs to connect mobile and web frontends with real-time data sources.

EDUCATION

Benazhir Bhutto Shaheed University, Lyari Jan 2024 — Present

BS Information Technology, Karachi

- Relevant Coursework:** Computer Networks, Information Security, Data Structures & Algorithms (DSA), Database Systems, and Object-Oriented Programming (OOP).
- Academic Application:** Successfully integrated networking principles and secure authentication protocols (Supabase Auth/RBAC) in professional full-stack projects.
